SUPPLEMENTARY INFORMATION: On November 15, 1994, at 59 FR 58958, EPA proposed three options for changes to the NAAQS for SO₂. On March 7, 1995, at 60 FR 12492, EPA proposed in the **Federal Register** the requirements for implementing the alternative measures and changes in the SO₂ ambient air surveillance network. That document requires that written comments on the proposed options for changes to parts 51 and 58 to implement changes in the SO₂ standard be submitted to EPA by June 5, 1995. Today's action announces the availability of the supplement to the RIA for the changes to the SO₂ NAAQS and the public hearing on the implementation plan and ambient air quality surveillance network for April 13, 1995.

SUPPLEMENTARY INFORMATION:

I. Background

On February 7, 1995, EPA published a Notice of Proposed Rulemaking (NPRM) in the **Federal Register** that proposed additions and revisions to the tailpipe emissions portions of the Federal Test Procedure (FTP) for light-duty vehicles and light-duty trucks (60 FR 7404). Interested parties should consult that notice and/or the public docket for a detailed description and background of the proposal. The primary element of that NPRM was a Supplemental Federal Test Procedure (SFTP) designed to address shortcomings with the current FTP in the representation of aggressive driving behavior (high speed and/or high acceleration), rapid speed fluctuations, driving behavior following startup, air conditioning, and intermediate-duration periods where the engine is turned off. An element of the proposed SFTP that also would affect the conventional FTP is a new set of requirements designed to more accurately reflect real road forces on the test dynamometer. The Agency also proposed emission standards for the new control areas with a specified phase-in period for these standards.

II. Public Participation

A. Comments and the Public Docket

The Agency welcomes comments on all aspects of this proposed rulemaking. All comments, with the exception of proprietary information, should be directed to the EPA Air Docket Section, Docket No. A-92-64 (see **ADDRESSES**). Commenters who wish to submit proprietary information for consideration should clearly separate such information from other comments by:

- Labeling proprietary information "Confidential Business Information" and
- Sending proprietary information directly to the contact person listed (see **FOR FURTHER INFORMATION CONTACT**) and not to the public docket. This will help ensure that proprietary information is not inadvertently placed in the docket. If a commenter wants EPA to use a submission labeled as confidential business information as part of the basis for the final rule, then a non-confidential version of the document, which summarizes the key data or information, should be sent to the docket.

Information covered by a claim of confidentiality will be disclosed by EPA only to the extent allowed and by the

procedures set forth in 40 CFR Part 2. If no claim of confidentiality accompanies the submission when it is received by EPA, the submission may be made available to the public without notifying the commenters.

B. Public Hearing

Anyone wishing to present testimony about this proposal at the public hearing (see **DATES**) should, if possible, notify the contact person (see **FOR FURTHER INFORMATION CONTACT**) at least seven days prior to the day of the hearing. The contact person should be given an estimate of the time required for the presentation of testimony and notification of any need for audio/visual equipment. A sign-up sheet will be available at the registration table the morning of the hearing for scheduling those who have not notified the contact earlier. This testimony will be scheduled on a first-come, first-served basis, and will follow the testimony that is arranged in advance.

The Agency recommends that multiple copies of the statement or material to be presented be brought to the hearing for distribution to EPA and members of the audience. In addition, EPA would find it helpful to receive an advance copy of any statement or material to be presented at the hearing at least one week before the scheduled hearing date. This is to give EPA staff adequate time to review such material before the hearing. Such advance copies should be submitted to the contact person listed in this notice.

The official records of the hearing will be kept open for 30 days following the hearing to allow submissions of rebuttal and supplementary testimony. All such submittals should be directed to the Air Docket, Docket No. A-92-64 (see **ADDRESSES**).

The hearing will be conducted informally, and technical rules of evidence will not apply. Written transcripts of the hearing will be made and a copy thereof placed in the public docket. Anyone desiring to purchase a copy of the transcript should make individual arrangements with the court reporter recording the proceeding.

Dated: March 29, 1995.
